

Florida Association for Healthcare Quality, Inc.

*Improving healthcare through the advancement of
the theory, policy, and practice of quality.*

June 12, 2007

FOR IMMEDIATE RELEASE, PLEASE

KEY WORDS: healthcare, risk management, quality healthcare

“NATIONAL RISK MANAGEMENT WEEK”

THE NATION CELEBRATES THE PEOPLE WHO SAFEGUARD PATIENT SAFETY

Ocala - The Florida Association of Healthcare Quality (FAHQ) would like to congratulate all of the healthcare Risk Managers in the State of Florida on National Risk Management Week. This week, June 16-20, commemorates the outstanding work that Risk Managers perform to ensure safety in patient care. The field of Risk Management includes the development and implementation of safe and effective patient care practices and the maintenance of safe working environments. The Quality Professionals of our organization have the privilege of working closely with Risk Managers in many healthcare settings, including hospitals, insurance companies and skilled nursing facilities, to help ensure the safest and best patient outcomes. We are pleased to honor our colleagues in Risk Management for the work they do every day for the people of Florida!
